

# OLESIA KUBSKA

## Junior Full Stack Developer

I am a dedicated Junior Full Stack Developer with two years of focused experience in backend technologies and modern frameworks such as Node, React, Angular, and SQL. Having transitioned from a background in music and arts, I bring a unique blend of creativity and technical skills to my work in developing robust backend solutions and dynamic front-end interfaces. Proficient in English at a pre-intermediate level, I can effectively communicate and collaborate with diverse teams. I am actively seeking a full-time position that will allow me to leverage my backend development skills and continue to grow within modern web technologies. Known for my relentless curiosity and commitment to continual learning, I am eager to deepen my expertise and contribute to innovative projects.

### CONTACTS

- (+48) 795375541
- kublesia0908@gmail.com
- [GitHub](#)
- [LinkedIn](#)
- Bialystok, Poland

### TECH SKILLS

- JavaScript
- Node.js
- MongoDB
- SQL
- HTTP
- Postman
- Swagger
- React.js
- Vite
- Angular
- GIT
- Parcel
- WebPack
- CSS Grid
- SCSS
- CSS3
- HTML5
- Scrum
- Agile

### SOFT SKILLS

- Organized
- Teamwork
- Communication
- Creative
- Decision-making
- Ability to learn
- Time Management
- Negotiation

### LANGUAGES

- Ukrainian - Native
- Russian - Fluent
- English - Pre-Intermediate
- Polish - Upper-Intermediate (Certificate B2)

### PROJECTS

- [WATER TRACKER](#) [HTML5, CSS3, JavaScript, React, Redux Toolkit, React Router, Axios, Vite, Node, Swagger, Postman] [GitHub](#)

This description highlights your role, key contributions, and the technologies you worked with, offering a clear and concise overview of your involvement in the project. This project showcases my ability to develop a user-centric application utilizing modern web technologies and API integration for a seamless user experience. The application utilizes a backend developed by our team. Feel free to familiarize yourself with it [here](#).

- [CINEMANIA](#) [ JavaScript, HTML5, SCSS, Parcel ] [GitHub](#)

In the project, I played a crucial role in developing and enhancing the catalog-search section. I was responsible for implementing key functionalities using JavaScript and HTML5. Additionally, I took the initiative to optimize and refine the user interface by making corrections to the SCSS and JavaScript codebase. This experience not only improved my technical skills but also honed my problem-solving abilities when dealing with intricate challenges.

- [MIMINO hotel](#) [ HTML5, CSS3, JavaScript, Parcel ] [GitHub](#)

Within the project, my primary focus was on designing and developing the restaurant menu section. I leveraged HTML5 and CSS3 to create an appealing and user-friendly interface. Incorporating JavaScript, I implemented interactive features to enhance the overall user experience. This project not only allowed me to enhance my front-end development skills but also provided insights into effective UI/UX design principles.

- [WEBSTUDIO](#) [HTML5, CSS3, JavaScript] [GitHub](#)

WEBSTUDIO was an educational project that enabled me to apply and consolidate my understanding of HTML5 and CSS3. Through this endeavor, I gained hands-on experience in building responsive and visually appealing web pages. This project served as a foundation for strengthening my web development capabilities and understanding the fundamentals of creating engaging online content.

### WORK EXPERIENCE

Teacher Assistant, Elementary School No. 4, Bialystok, Poland. (2022-2023)

- Assisted students from Ukraine in adapting to a foreign country
- Serving as a Polish-Ukrainian translator between students, parents, administration, and teachers

Music Teacher, Specialized School No. 106 with Intensive English Language Learning, Kyiv, Ukraine. (2013-2022)

- Conducted music and art lessons and acted as a homeroom teacher
- Served as the secretary of the pedagogical council
- Participated in the Teacher of the Year 2022 competition
- For my work I have been awarded and distinguished
