TECH SKILLS

- JavaScript
- React.js, React Native
- Redux, Redux Toolkit
- Angular.js, TypeScript
- Vite.js, CRUD
- Node.js, Swagger
- Postman, MongoDB
- SQL, MySQL, PostgreSQL
- Artificial Intelligence
- LLM, REST-API
- Web Development
- Doker, Render
- GIT, GitHub, GitHub Pages
- Scrum & Agile
- Figma
- VS code

LANGUAGES

- Ukrainian *(Native)*
- Russian *(Fluent)*
- English *(Intermediate)*
- Polish *(Advance)*

PROFILE

I am a Junior Full Stack Developer with hands-on experience building full stack applications during intensive training and team-based projects. I am detail-oriented, proactive, and communicate effectively in English (Intermediate level). I am currently seeking a full-time opportunity where I can continue growing professionally and contribute to impactful, modern web solutions.

TEAM PROJECTS

WATER TRACKER   GitHub

Developed a hydration tracking app using React, Redux Toolkit, Axios, and React Router. Collaborated with a team and integrated with a Node.js backend: *GitHub*.

Technologies Used: *React, Redux Toolkit, React Router, Axios, Vitejs, JavaScript, Node.js, GitHub Pages, Swagger*

CINEMANIA   GitHub

Contributed to the development of the movie search section. Built search functionality using JavaScript and HTML5, optimized styles and interactions using SCSS.

Technologies Used: *JavaScript, HTML5, SCSS, Parcel, GitHub Pages*

MIMINO hotel   GitHub

Designed and developed the restaurant menu section. Created adaptive layout with HTML5/CSS3 and added interactive elements with JavaScript.

Technologies Used: *HTML5, CSS3, JavaScript, Parcel, GitHub Pages*

PERSONAL PROJECTS

AI Calendar   GitHub-backend GitHub-frontend

Built a full-stack calendar app with .NET 9 WebAPI and React. Gained experience in date/time logic, dynamic participant management, LLM integration, Docker, and cloud deployment via Render and GitHub Pages.

Technologies Used: *.NET 9, WebAPI, React, TypeScript, LLMs (Prompt Engineering), Docker, Render, GitHub Pages, Tailwind CSS, Vitejs*
